

Easy Paper Marbling!

MATERIALS NEEDED

- **Shaving Cream**
- **Food Coloring** (liquid works better than gel)
- **Popsicle Stick** (or other mixing tool)
- **white paper** (card stock works best but any white paper will do)
- **wax paper or shallow pan** (or both)

ESTIMATED TIME: 5-10 min

STEPS

1. Shake shaving cream bottle and squirt a small pile onto wax paper or shallow pan. (Watch it expand and grow!)
2. Add several drops of food coloring to shaving cream pile.
3. Use the posicle stick to draw lines or shapes in the shaving cream. (Do not over stir or you will end up with a grey or brown blob of shaving cream.)
4. Pat paper onto the pile of shaving cream.
5. Peel paper up from shaving cream.
6. Wipe off the shaving cream with the posicle stick.
7. Allow paper to dry naturally.
8. Use for stationary, other crafts, or enjoy as a work of art!
